

TECHNOLOGY ROADMAP

Upcoming projects and enhancements for Cottonwood's technology ecosystem.

Continue on the second page for a look at other projects on the horizon.

OTHER PROJECTS ON OUR RADAR

Other technology-related projects and upgrades on the horizon for Cottonwood

A/V Upgrades for Meeting Rooms

The Tech Steering Committee will review options for improvements and upgrades to the webcam, TV, and sound set up in our meeting rooms.

Websites Refresh Project

Foundation and IT are working to upgrade and modernize the three Cottonwood websites: Industries, Salute and the primary www.cwood.org

Smart Home Implementation

Residential and IT have been working on a long-term project to install smart home tech such as tablets, sensors and medication dispensers.

Did You Know...

Cottonwood has a Technology Steering Committee (TSC) that meets every two weeks. The purpose of TSC is to review technology related needs and keep the organization educated on upcoming technology-related trends and issues.

The Tech Steering Committee maintains a list of projects to monitor and facilitates demos from 3rd party vendors as needed.
